All stores were closed within an hour and every able-bodied man in the place went on the trail.

The situation is so dangerous Austria is rushing reinforcements to her provincial armies. Scores have been killed and a state of anarchy exists in the eastern and southern sections of the annexed territory. Austria is exercising the strictest censorship and is able to keep the true situation from the world.

The diplomatic corps believes Turkey will recede.

BRYAN DECLARES HE
WILL CARRY OHIO

Says Reports From All Parts of Country Show Swing Toward Democracy.

Point Pleasant, W. Va., Oct. 22.—Shown President Roosevelt's letter to Senator Knox assailing his labor views Mr. Bryan today said if the president really desired information regarding his stand on the injunction matter all he had to do was to read his speech made in Chicago on Labor day and repeated many times since. Mr. Bryan will reply at length to the Roosevelt letter as he believes the more prominence given the president in the campaign the better for Democrats. He declared today he will carry Ohio by a large majority. "Reports reaching me from every section of the country during the last 24 hours, all show a swing toward Democracy which is daily becoming more irresistible and nowhere is this better shown than in what have been lately termed 'doubtful states.'" Mr. Bryan makes twenty speeches in West Virginia today. He leaves tomorrow for New Jersey and New York.

BRYAN SEEKS TO DELUDE
LABOR BY SHAM

Says President—Demands to Know Stand of Leader on Subject.

Washington, Oct. 22.—President Roosevelt yesterday addressed a letter to United States Senator Philander C. Knox of Pennsylvania, in which Mr. Roosevelt pays his respects to Samuel Gompers, president of the Federation of Labor. Speaking at Philadelphia on Tuesday, Senator Knox took issue with Mr. Gompers on the question of the attitude of organized labor in the present campaign, and the president's letter in support of Mr. Knox's views. Mr. Roosevelt says in part:

"Further on in the same page of the hearings, Mr. Gompers states: 'I will say this, that I think I will try to make my position clear that the American Federation of Labor has declared itself that it must insist upon the principle involved in the Peare bill and that I explained as best I could, the position of labor—that we would rather be compelled to hear the wrongs which we have for a longer period than to give our assent to the establishment of a wrong principle, believing and knowing that the time would give the justice and relief to which labor—the working people—are entitled.'"

"This bill, then, and none other, represents exactly the relief that Mr. Gompers demands in the way of anti-injunction legislation; and if the statement in his declaration, this bill represents what Mr. Bryan and his party are pledged to in the matter of anti-injunction legislation."

"The injunction plank in the Bryanite platform may sound vague and hazy; but there is nothing vague or hazy about this bill."

"It is more than a bill, it is a program of the most fixed and definite kind and if Mr. Gompers is correct, this bill becomes, as it were, an authorized appendix to Mr. Bryan's platform, or a footnote explaining in detail the brief and vague injunction plank in that platform."

"Does Mr. Bryan accept it as such? Mr. Bryan should state publicly whether he in fact accepts the principle of this bill which is the official program of Mr. Gompers and those who stand with him."

"Mr. Gompers announces publicly that Mr. Bryan's plan has made this program its own. Is Mr. Gompers correct in this statement? I feel that I have the right to speak frankly in this matter, because through out my term as president it has been my constant object to do everything in my power, both by administrative action and by endeavoring to secure legislative action, to advance the cause of labor, protect it from unjust aggression and secure to it its legitimate rights. I have accomplished something; I hope to accomplish something more before I leave office; and I have taken special and peculiar interest in Mr. Taft's candidacy because I believe that of all the men in this country he is the man best qualified for continuing the work of securing to the wage-workers of the country their full rights. I will do everything in my power for the wage-workers of the country except what is wrong I will do wrong to no man; and with all the force in my power I solemnly warn the laboring man of this country from any public interest who advocates doing wrong in their interest can not be trusted by them; and this whether his promise to do wrong is given knowing that it is wrong or because of a levity and lack of consideration which make him willing to promise anything without counting the cost if thereby he support at the moment is to be purchased. Just as I have fought hard, and shall continue to fight hard, bringing about in the fullest way the recognition of the right of the employee to be amply compensated for injury received in the course of his duty, so I have fought hard to prevent the work of securing to the wage-workers of the country their full rights. I will do everything I can to see that the power of injunction is not used to oppress laboring men. I will endeavor to secure them full and equal justice."

"Therefore, in the interest of all good citizens, be they laboring men, business men, professional men, farmers, or members of any other occupation, so long as they have in their souls the principles of sound American citizenship, I denounce as wicked the proposition to secure a law, which, according to the explicit statement of Mr. Gompers, is to prevent the courts from effectively interfering with riotous violence when the object is to destroy a business, and which will legalize the blacklist and the secondary boycott, both of them the apt instruments of unmanly persecution."

The Trustee Process Bill Ordered to Lie—Many New Bills Introduced Today—Mason S. Stone Re-elected.

State House, Oct. 22.—In the House this morning, sixteen bills were introduced, including one by Mr. Barber of Brattleboro, providing for a chief judge and four associate judges of the supreme court. In the Senate Mr. Gibson of Windham introduced a bill as to permit the killing of deer, which are destroying property on cultivated land. The deer so killed are to be turned over to the authorities for the benefit of the state. Upon motion of Senator Lewis of Orleans the committee on municipal corporations was excused from further consideration of the joint resolution calling for the investigation of the telephone companies in the state. The bill was then referred to the general committee. The reference of this resolution to a committee is thought by many to mean the side-tracking of the measure in the Senate.

When the House bill relating to exemption from trustee process in wages to the extent of \$10, was taken up for discussion, Mr. Tilden of Barre City said that the measure was an important one both to merchants and laboring men and that he favored having the bill lie and made the motion with the consent of Mr. Barber, who introduced the bill. Mr. Davis of Springfield spoke in the interests of the laboring man and thought that certain changes should be made in the bill to make it more comprehensive before it was passed. It was ordered to lie by unanimous vote.

The bill providing for a court of inquiry concerning insane paupers was passed in the House. The purpose of this bill is to save expenses for the state in the support of the pauper insane in cases in which there are relatives who can afford to contribute toward the support of such pauper or are likely to be able to do so.

The bill which passed the Senate yesterday allowing three persons to incorporate under the laws of the state instead of "five or more" came to the House and was referred to the judiciary committee.

The case-making committee met in the clock room this morning to canvass votes for county officers and will report some time this afternoon. The Washington county vote has already been printed in the newspapers.

Election of Judges.

Considerable interest was manifested at the State House this morning over the election of judges this afternoon at 2:30 o'clock. It was thought that Chittenden county might present the name of E. C. Mower, municipal judge, in Burlington, but at a late hour it was decided not to present his name. Rutland county was debating over the question of presenting the name of Henry L. Clark for the place, but no definite action was taken in the matter. Washington county will present the name of Hon. Zed S. Stanton, candidate for the Republican nomination, and at noon it looked as though he might be unanimously elected.

Mr. DeBoer of Montpelier nominated Mr. Stanton and also named Mason S. Stone for the position of state superintendent of education to succeed himself. Mr. Bacon of Hartford named C. H. Ferris, sergeant-at-arms, to succeed himself. There was no opposition to either of these candidates. Neither is there any to the election of Superior Judge Haselton, who was nominated by Mr. Leary of Burlington to the place on the supreme bench made vacant by the retirement of Judge Tyler. Adjutant-General Gilmore was re-elected to his position.

The statute provides that the three judges of the court of claims shall be elected at the same time with the other officers. At the present time Linus Leavens of Cambridge is the only member of this court remaining. Judge Plumley and Judge Flinn having tendered their resignations. There is a bill in the Senate at the present time abolishing the court which seems to stand a good chance of passage and it may be that on this account this election will be set aside, if it is possible to do so legally. If the judges were elected and then the court was abolished, the passage of the bill would take precedence over the election and as the term of office of the present members does not expire until December 1, there would be no office to be filled when that time came.

Bills introduced this forenoon: By Mr. Adams of Marlboro, to amend section 5321 of the statutes, relating to the open season for deer and the manner of taking. Fixes penalty of \$100 for anyone killing a deer found injuring or destroying crops or fruit trees, unless he shall in writing under his signature, report such killing to the town or county game warden.

By Mr. Bowles of Woodford, to provide for a bounty on bears and snakes. \$12 for a bear and \$1 for a rattlesnake.

By Mr. Winslow of Fairlee, to amend section 535 of the statutes, relating to the payment of rent on sequestered lands.

By Mr. Bowles of Woodford, to amend section 5025 of statutes, relating to regional officers. Abolishes the governor's staff.

By Mr. DeBoer of Montpelier, to amend section 2061 of the statutes, relating to bail on Meane process. Permits superior judges to admit to bail.

The Season Put Off for Twelve Days Under a Special Act Passed by Both Houses of the Legislature Yesterday.

FOREST FIRES EXPLODE
NITRO-GLYCERINE PLANT

Causing Destruction of Buildings So That Not a Vestige of Them Remains.

Pittsburg, Oct. 22.—Forest fires which have been raging for several days in the vicinity of Shannopin, near here, communicated to-day with a nitro-glycerine plant, causing an explosion which blew up two magazines containing five hundred gallons. Every vestige of the buildings was wiped out. Residents of the town were helped when the flames approached the magazines. They had to give up the fight when the fire approached within several hundred feet of the explosive, and although all withdrew to an apparently safe distance, one woman is reported killed by flying glass.

DEATHS WILL REACH 300.

Typhoon and Torrential Rains in the Philippines.

Manila, Oct. 22.—Belated reports indicate that the storm of October 12 in the Cayanag valley was the worst and most destructive within the memory of living inhabitants of the valley. The official figures are not yet available, as many places have not been heard from, but it seems certain that the number of dead will reach 300.

There was a heavy typhoon and torrential rains throughout the valley and in the mountains.

The rivers were flooded and in many places rose to a height of thirty feet, sweeping everything before them in their path to the sea. Hundreds of animals and houses were swept away by the waters.

At Apari, which was almost all under water, the American residents headed by Lieutenant Freadler and Clark, Postmaster Foss and Engineer Clark, formed a brigade which rescued scores of natives, taking many off their houses, which were floating down the river.

The government has dispatched a coast cutter to investigate conditions and organize relief.

It is reported that cholera has broken out among the refugees.

CUT IN MEAT PRICES.

Refusal to Pay High Figures Forces the Packers to Reductions.

Chicago, Oct. 22.—Wholesale prices of dressed beef cuts have been lowered from 1 to 1½ cents a pound, while the market for fresh pork products is reported to be in a demoralized condition, with stock accumulating and consumers refusing to pay the high prices asked by the packers.

Reluctance to buy high priced beef products and the fact that the temperature has been too high for the increased consumption of heat producing food are the influences which forced packers to lower prices.

"The consumption of beef and pork has been far below normal in the last few months, the receipts of cattle and swine have exceeded last year's figures and packers have found it imperative to do something to increase the demand."

CHANLER ON RECORD.

Jamestown, N. Y., Oct. 22.—Lieutenant Governor Lewis S. Chanler, Democratic candidate for governor, put himself on record with regard to what Governor Hughes has termed the two great issues of the state campaign by making the following declarations in his speech at Salamanca yesterday:

"I am not in favor of the repeal of the Agnew-Hart law."

INSTALLED
AS PASTOR

Impressive Services at Presbyterian Church

FOR REV. J. D. MACKENZIE

Rev. J. W. MacCallum Delivers Charge, Rev. W. S. Wallace the Greetings, and Rev. F. A. Poole Welcomes Him to This City.

The Presbyterian church was well filled last evening when the Reverend J. D. MacKenzie was formally installed as pastor. The services were opened with prayer by Rev. J. W. MacCallum of Manchester, N. H., and then came an address by Rev. S. C. Brownell of West Barnet, who spoke from the 11th chapter of Acts the 21st verse, "And the hand of the Lord was with them and a great many believed and turned unto the Lord."

Mr. Brownell said that the prosecution of the early Christians was not successful and no more is it successful today. The experience of a great many converted souls is the same today as it was long ago, they believe and turn unto the Lord. Salvation calls them. A salvation that is not only an insurance for the life hereafter, but that makes a heaven on earth. Multitudes are cast down who, if they realized that deliverance was near would cry out "Lord save me, I am perishing." There is only one reason why they should be cast out and that is because they will not accept and submit their wills to that of the Lord. There are but few who do not believe in the supremacy of this religion, but we must be like Paul and not ashamed of it. We should seek more to do the will of God from the heart.

At the close of his address Mr. Brownell put the usual questions to the pastor and to the congregation and then declared Mr. MacKenzie formally installed as pastor of the church.

Mr. MacCallum then delivered a charge to the pastor saying that his was the most sacred office that man could have, to direct souls of men to Jesus Christ. To own millions is nothing in comparison and this at the same time the most glorious privilege awarded to man. In closing he advised the newly installed pastor to "preach Jesus Christ and compromise on nothing."

Rev. W. S. Wallace of South Ryegate then extended the greetings of the Presbytery to the congregation and congratulated it upon its choice of a pastor. He advised the members of the congregation to co-operate with the pastor in every plan and work for the furtherance of the gospel. Guard his reputation as something sacred to him and to you.

Rev. Francis A. Poole, pastor of the Congregational church was the next speaker and extended a hearty welcome to Mr. MacKenzie on behalf of the churches and ministers of the city.

At the conclusion of the services the pastor held a reception and a social hour was enjoyed.

MAN AND DEER BATTLE.

Combat of Axe Versus Antler Witnessed by Auto Party.

Concord, N. H., Oct. 22.—Northfield, 20 miles north of this city, was yesterday the scene of a lively battle between a man and buck deer, witnessed by a party of automobilists.

Close by the railroad station, a lumberman, axe in hand, good-looking, was seen suddenly rushing upon by a large deer which had been lurking in a nearby cover.

A lucky stroke with the axe upon the animal's head checked the attack, but the buck quickly renewed his charge and the battle was warmly waged. At last, after a series of engagements, in which the lumberman's axe was busy, the defeated deer retired to the woods.
